MAGIC SKY DRONE ZONE

If you and your family are attending this year's Norsk Høstfest, don't miss the opportunity to fly a drone! Join us in the MAGIC Sky Drone Zone for one-on-one lessons from Minot's industry experts, SkySkopes, free of charge! The MAGIC Sky Drone Zone will be located in Stockholm Hall, booth 19, during the Norsk Høstfest from September 27-30, 2017.

The MAGIC Sky Drone Zone is hosted by eSmart Systems, Robot Aviation, SkySkopes, Ackerman-Estvold, and MADC. As industry experts representing different fields in the Unmanned Aerial Systems (UAS), you'll have the opportunity to learn anything UAS related. Previously featured as keynote speakers during the annual Business to Business Seminar, these companies could help fulfill MADC's initiative to make Minot the go-to city for UAS operations.

For people of all ages, including children, make sure to stop by the MAGIC Sky Drone Zone for this fun and engaging experience during the Norsk Høstfest! SkySkopes, a leading drone service provider, will have at least four pilots manning the booth and giving hands-on drone flying lessons. SkySkopes (who opened an office in Minot in 2016) features the most qualified UAS pilots in the country. Asked to assess the disastrous hurricane Harvey and Irma, SkySkopes is a national leader in UAS flight operations and the MAGIC Sky Drone Zone is a great opportunity to learn from the best. Whether it's recreational or educational, if you know anyone interested in the UAS industry make sure they don't miss the MAGIC Sky Drone Zone!

The MAGIC Sky Drone Zone coincides with MADC's MAGIC Sky Initiative. Make sure to stop by booth 19 in Stockholm Hall, for a hands-on drone flying experience! [Click here](#) to learn more about the MAGIC Sky Initiative and Minot's UAS opportunities.
